

BEGIN WORK SOON ON BETTERMENTS TO COST \$60,000

Central Union to Place Cable Underground Between Rock Island and Moline.

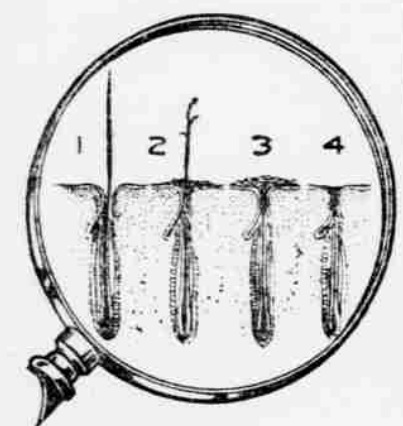

TO LAY LEADS TO DAVENPORT

Will Also Make Extensions Into New Territory South of Eighteenth Avenue During Year.

Work on the first of a series of betterments which will cost \$60,000 will soon be started in Rock Island by the Central Union Telephone company. The initial project is a cable extension from the Rock Island office on Eighteenth street near Seventh avenue, to the Moline office, which is on Fifth avenue near Sixteenth street. Eight car loads of cable, specially made, and running into thousands of dollars in cost, have arrived. Four carloads are being unloaded in Moline and four in Rock Island.

The cable will be extended in underground ducts, constructed last year on Seventh avenue, due east to Forty-sixth street, Rock Island, continuing on Fifth avenue in Moline. The cable is 150 pair, 19 gauge, and was made at the Western Electric company shops in Chicago. It is particularly adaptable to the most transmission for heavy service.

Work will be started in 10 days. It

HERE ARE 4 HAIR PLANTS LIKE THE HAIRS IN YOUR HEAD

No. 1 is a strong healthy hair with proper nourishment.

No. 2 is a dry, brittle, split hair, practically lifeless.

No. 3 shows the hair cell so covered with dandruff that the hair cannot live and is soon smothered.

No. 4 shows the hair plant that is hopelessly dead.

There are about 175,000 hair plants in the human head. Whether they are strong, healthy plants or sickly and lifeless depends upon the care which they receive. If one-half or two-thirds of your hair cells are stopped up with dandruff you cannot expect a good head of hair.

Your hair cells must be kept open—free from dandruff—the scalp must be kept soft and healthy.

Ordinary toilet soaps and shampoos do not open the hair cells. They remove the loose dandruff from the hair and scalp, but they contain free alkali and really injure the hair plant.

The hair is an oil plant and should be washed only with an oil shampoo.

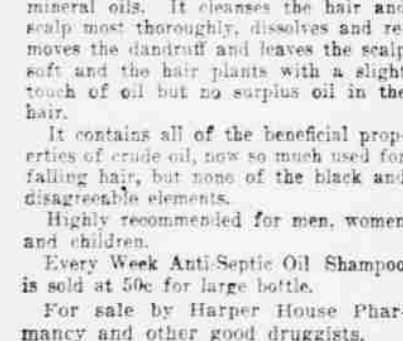

EVERY WEEK ANTI-SEPTIC SHAMPOO contains both coconut and mineral oils. It cleanses the hair and scalp most thoroughly, dissolves and removes the dandruff and leaves the scalp soft and the hair plants with a slight touch of oil but no surplus oil in the hair.

It contains all of the beneficial properties of crude oil, now so much used for falling hair, but none of the black and disagreeable elements.

Highly recommended for men, women and children.

Every Week Anti-Septic Oil Shampoo is sold at 50c for large bottle.

For sale by Harper House Pharmacy and other good druggists.

Spark-Proof Roofing!

We have it—a prepared roofing that is classed by fire insurance companies as "equal to tin, slate or tile" in fire-resisting qualities. This roofing is

RU-BER-OLD

It is the most durable roofing that we know of. Hundreds of RU-BER-OLD roofs applied more than 20 years ago are still watertight.

Put on RU-BER-OLD and you will put an end to repair bills. It will not rot, warp, run or crack.

Come in and let us show you RU-BER-OLD and tell you exactly how much you will need to cover that new building or replace that old roof that needs repairs.

MUELLER LUMBER CO.
2405 Third Ave. Phone R. I. 511
Sold Exclusively by

was originally intended to begin laying the cable on May 15, but as it has arrived earlier than expected, opportunity will be given to start the construction early in May. It is expected that about a month will be required to complete the task, as the distance between the two offices is about two and a half miles.

Remove Overhead Cable.

The service between Rock Island and Moline will not be impaired. The cable at present in use extends overhead on Fifth avenue, Rock Island, and on Third avenue, Moline. When the present cable is placed underground the old one will be removed and the change from one to the other will be made without hampering the service during the period in which the switch is made.

The underground cable project to Moline is one of the betterments the company had planned upon when the new home was completed on Eighteenth street a year and a half ago. Another improvement similar in nature will be undertaken as soon as the Mississippi river returns to normal stage. It is the laying of a heavy cable on the bed of the river and connecting the Rock Island office with the one in Davenport. The cable for this connection will be here soon. It is being made in Chicago at the present time, but it is figured that by the time the water recedes to its normal stage the cable will be ready.

At the completion of the work in connecting the offices on each side of the river the cable now overhead over the Rock Island bridge will be removed.

Extension South.

Another extension is to be made on Twelfth street. Manager A. J. Beverlin of the telephone company states that the company is looking towards a wonderful development south of Eighteenth avenue and in extending a heavy cable into the new territory, figures that there will be many new residences and a wide use of the telephone in the annexed territory within the next five or ten years.

Notice of Application for Saloon License.

We, the undersigned property owners in the city of Rock Island, county of Rock Island, and state of Illinois, being the owners of the property described opposite our names and of the number of front feet described opposite our names within 200 feet of the front door of the premises to be known as and called 4332 Sixth avenue, in the city of Rock Island, county and state aforesaid, do hereby petition the honorable city council of the city of Rock Island to grant a saloon license to W. C. Mueller, or his assigns, the said above described location and hereby consent to the issuance of such license.
